

# Michigan Breeding Bird Atlas - II Official Field Observer

PLEASE NOTE: The Michigan Breeding Bird Atlas is a multi-year project to determine what bird species nest in the state and where they nest. In order to survey the birds in this area, it is necessary to park in this location and enter this property. Atlasers respect private property, carry no guns, make no noise and leave no litter. For more information, email [miatlas@naturecenter.org](mailto:miatlas@naturecenter.org) or telephone 269/381-9738. THANK YOU FOR YOUR COOPERATION.
